Re: request for playground equipment funding in 2011

Greetings:

The White City Parks and Recreation Board is requesting \$7,000 towards new playground equipment at the Splash Park for the 2011 budget. We have submitted a request for funding under the Community Initiatives Fund- Community Vitality Program for \$11,000 (the maximum available based on equipment being planned to purchase). The equipment we plan to purchase will be similar to the playground equipment at Fernwood Park. The Parks and Rec Board is also fundraising for this equipment.

For information purposes:

The Parks and Rec Board will also be submitting the application for recreation grant, deadline October 31, 2010. We will be requesting \$25,000 from the RM of Edenwold for playground equipment that we would like to see installed at Hummingbird Park. We recognize that the Town of White City has already approved \$25,000 for playground equipment to be located at Fernwood Park. The Parks and Rec Board will be fundraising for this equipment.

We will be calling on in-kind donations for each of these playgrounds with regards to materials such as sand and other items required and we will need volunteer labour to help in the construction. Supervision by Blue Imp.
