Re: Garden of Eden – Letter to Residents

### **Background**

At the August 8, 2011 Council meeting there was some discussion of a letter to be sent to the residents of Garden of Eden Estates in regards to the Development requirements of the Developer and the status of those services.

### **Discussion**

There was no direction or motion given to Administration as to whether a letter should actually be sent out.

Administration is asking Council to open up the subject for discussion once again for the purpose of getting direction as to what Council would like.

### **Budget Implications**

None

### **Conclusion**

The purpose of this report is to explain the reason for bringing this item back for discussion.

### **Recommendation**

Administration is requesting direction from Council as to what Council wanted sent to the residents.

Respectfully submitted,

Shauna Bzdel,  
Town Manager
