Re: McKenzie Pointe Pavement

Background

At the January 23, 2012 council Meeting, Council tabled the item of McKenzie Pointe Pavement to the February 6, 2012 Council Meeting. The reason for this was for the Developer to be able to get more information on alternatives to ripping up the pavement and re-asphalting McKenzie Pointe Road.

Discussion

The Developer is requesting this be tabled further until February 21, 2012 Council meeting.

Budget Implications

None

Conclusion

The Developer's engineer has been away and would like to discuss the pavement testing results with our Engineer.

Recommendation

Administration recommends that Council pass the following motion:

"THAT the McKenzie Pointe Pavement issue be tabled to the February 21, 2012 council meeting.

Respectfully submitted,

Shauna Bzdel,
Town Manager
