Re: Town Manager's Report

**Prairie Valley School Division – Regional High School**

Stantec has been contracted by PVSD to review proposals for possible locations for a Regional High School. White City was contacted to submit a proposal, and I prepared a proposal for the only land that the Town of White City owns. The proposal was for the land located east of the town office and ball diamonds. In 2008 the Ministry of Highways and Infrastructure had identified excess lands that would not be needed by the Ministry once the off ramp and interchange was constructed. I added the excess land to the Town's proposal. I also contacted Highways to notify them that the Town would be interested in purchasing that land for the purpose of having a School constructed at the location.

Respectfully submitted,

Shauna Bzdel,  
Town Manager
