Re: Town Manager's Report

Ratepayer Meeting

Councillor Passmore brought to my attention a couple of weeks ago the idea of possibly holding a Ratepayer's Meeting. This could be a BBQ, or a Potluck meal, or such. I am interested in hearing Council's thoughts on the subject.

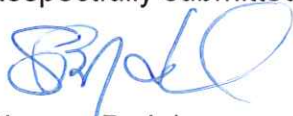

June 17th, 18th & 19th

The excessive rainfall presented a huge problem for the Town at all of the lift stations throughout Town. Our Public Works crew did a remarkable job of managing the situation and a huge 'Thank You' goes out to them. We are fortunate to have such dedicated employees!

Surface Water Drainage

I met with Dwayne Siba, from Sask Watershed, and Dennis Towle, an engineer from AECOM that is doing the engineering for the drainage north of the highway. Dennis has agreed to do the drainage plans for White City as well. The engineering costs for this are covered 100% by the Flood Preparedness Program.

Respectfully submitted,

Shauna Bzdel,
Town Manager
