Re: Town Manager's Report

### **ATV Bylaw**

I have located a supplier for the ATV flags, and they are on back order until September 14, 2011. We have also priced out the cost to silk screen the White City logo and registration number on the flag. Once we receive the flag we will take the flag to the silk screener to verify that we can do what we need.

### **SaskWater**

Saskwater has been working on different options for water supply and delivery. Representatives from Saskwater will be attending a Council meeting in the near future to discuss the options with White City.

Marsha Hagen has also been invited to the next White Butte meeting to discuss the possibility of the communities within the White Butte Region of providing Vale with effluent for their solution mining needs.

Respectfully submitted,

Shauna Bzdel,  
Town Manager
