**Committee Reports**

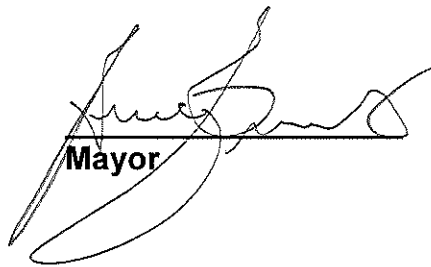

1. Councillor Bjola reported that she had sent an e-mail to the EMO Committee outlining a process towards the development of an Emergency Response Plan for the Town. She was waiting for feedback from the Committee members before proceeding with the next step.
2. Councillor Schwartz reported that he was still gathering information with respect to the potential options the Town might have with respect to recycling. He will keep Council advised on any progress.
3. Councillor Passmore reported that the Town had received a certificate from Worksafe Canada recognizing our accident free work environment.
4. Councillor Kalynchuk reported that he and Councillors Slack, Snyder and Passmore had met with the Zoning Bylaw Review Consultant, Gary Quiring, to provide clarity to a number of questions Mr. Quiring had about the Bylaw. It was a very good meeting and Mr. Quiring was pleased with the responses and the direction he was provided in his review of the By law.
5. Councillor Snyder reported on the Wastewater project in his capacity as Chairman of the Wastewater Management Authority. The Authority has been primarily focused on arriving at a cost share agreement for the municipal portion of the Wastewater Treatment and Force Main/Lift Station project. The project, which includes Federal and Provincial Government funding commitments, has a value of \$4.7M.

The municipal portion, which represents 1/3 of the \$4.7 M, is to be cost shared between White City and the RM of Edenwold. At a recent Authority Meeting it was agreed that the RM and White City would cost share 50/50 on the municipal portion and that as soon as the force/gravity main began transferring primary effluent to the White City Lagoons, users connected to the system would pay the connect fee to the Authority. The AEL Consultants are currently completing the sustainability study to determine if the White City Lagoons are environmentally secure. The Assessment is expected to be complete by December 21, 2009.

6. Councillor Slack reported on the Highway #1 East Functional Study. The Consultant has released information for public knowledge that describes the study outcomes and outlines the beginning stages of the public input. The Study process will include two public open houses. The information about the Study and the notice inviting the public to the first Open House on January 27, 2010 are posted on the Town's website at [www.whitecity.ca](http://www.whitecity.ca).

**Adjourn**  
**321/09**

**Schwartz/Kalynchuk:** that the meeting be adjourned:
